SEVEN PERSONS WERE KILLED.

A Number of Others Wounded, but None of Them Likely to Die-High Water the Cause of the Disaster-Names of the Dead and Injured-The Loss a Heavy One to the Railroad Company.

DANVILLE, Va., Aug. 17.—An awful accident occurred at the county line trestle, just east of Milton, by which two passenger coaches and a sleeper were precipitated 60 feet into the creek below, killing seven persons outright and wounding a number of others.

The train was the regular train bound

for Portsmouth. After passing through Milton and going over the trestle the engineer, Peyton Tunstall, who says he was running at the rate of 10 miles an hour, felt the bridge giving away. He threw open the trottle and the engine. tender and boxcar got safely over, but the passengercar was too late, and the span went down under its weight, the second passengercar and sleeper follow-

The cars were shivered into kindlingwood and the escape of any of the passengers was a miracle. The water in the creek had risen to the depth of 12 or more feet, and it is the general belief that the rise had undermined the toundation of the iron piers, eausing the trestle to settle.

On the train at the time were about 16 persons, including the trainhands. but only one of the latter—Conductor Morris of Portsmouth-was killed; none of the others receiving serious in-

The depot agent at Milton heard the crash and immediately gave the alarm by tolling the bell. The people turned ont in full force and went to work at once to rescue the dead and injured from the debria. from the debris.

Mr. J. L. Slzer, the Pullman conductor, in speaking of the accident, says: "I had just gotten through with my collections and reported to Captain Morris, who had passed forward on the train, and was preparing to retire when the crash came. Fortunately I was in the forward end of my car. Mrs. Giersch's nurse was in the rear end of the car, where she was found with her head and chest under the water, and was most probably drowned, as there was no heavy timbers or anything else on her body that might have caused her

The loss will be very heavy to the railroad company, as the cars and a full span of the bridge are a total loss. The passenger, mall baggage, freight, etc., were passed on through, they being transferred at the creek.

Messrs. Elam and Davies, who were killed, were in Danville Tuesday, and the former had concluded at one time not to leave for home that day, but afterward changed his mind and went by an early morning train.

Captain Morris was chief of the R. E. Lee division of the Order of Railroad Conductors and leaves a wife and a grown son and daughter.

Chicago Schemers Try to Import Austra-Han Waitresses

Washington, Aug. 17.—The treasury department is in receipt of information that a scheme is on foot in Australia to inveigle young women from that country to the United States under false pretenses. Advertisements have been pnt in the country papers stating that there is a great demand in Chicago for waitresses, who command very high wages on account of the crowds visiting

the world's fair. These waitresses are wanted, accordlng to the representation made, to work in the fair grounds. The inducements held ont include transportation to America and return to Australia, and the schemers secure themselves, by having each woman sign a contract to repay the expenses incarred in travel out of her wages which, it is stated, will not be less than \$100 a month.

Each applicant for position is required to forward a full-length photograph of herself, showing her figure, that the projectors of this scheme may judge whether she is physically capa-ble of withstanding the long journey. The matter is now in the hands of

the Australian authorities, who expressed doubts as to the honesty of the purpose of the schemers. Colonel Stump of the immigration bureau is also on the lookout for any women who come from Australia under contract. If they land here it will be at San Franclseo. United states officers have been notified to be on the alert.

Then the bill to increase the circulation of national banks was taken up and postponed for the reason that several senators had informed Mr. Voor hees that they desired more time to prepare to discuss it. But before it was so laid aside an important amendment was proposed to it by Mr. Cockrell—to authorize the redemption (at par and accrued interest) of such 2 per cent bonds (over \$25,000,000 in all) as may be offered, and to authorize the issue of new treasury legal tender notes in payment therefore. The amendment in payment therefor. The amendment produced considerable discussion, Mr. Sherman condemning it as an unbusinesslike proposition, and Mr. Cockrell expressing his amazement and mortifi-cation that the friend and patron of the national banks—the great gold monometallist from Ohio—should object to an amendment that would increase the amount of currency in circulation.

Another amendment to the bill was offered later on by McAllen of Nebraska for the cessution of interest on the bonds on which the increased national bank circulation should be based. After that there were two speeches delivered, one by Mr. Berry in favor of bimetallism, and one by Mr. Gallinger against tariff legislation before 1897.

BLOOMINGTON, Ills., Aug. 17,-Saturday night the sheriff of MeLean county set out to levy on the six elevators of the failed Middle Division Elevator eompany which are located in McLean county. When midnight came he was legally unable to proceed further, it being Sunday; he had possession of the elevators at Colfax and Cooksville. The farmers about Cropsey, learning the situation, determined to obtain possession of some 20,000 bushels of grain stored in the Middle Division company elevator at that place, which was still their property, not having been paid

At 5 p. m. Sunday they gathered from all directions in large numbers with teams, and prepared to break into the elevator if need be and take the grain. No opposition was offered, and by 1 a. m. every pound of grain, including 12.000 bushels of new oats, had disappeared. So soon as the grain was on the ground, it was legally beyond the reach of the sheriff's levy. The same thing on a much smaller scale was done about the same time at another ele-

SEARCHING FOR \$70,000,000 Supposed to Have Been Buried in 211s-

souri by French Settlers. WARRENSBURG, Mo., Aug. 17. - A

company of men is searching for a large amount of gold supposed to have been buried many years ago on what is now the Greening farm, five miles southeast of this city.

This is not the first attempt that has

been made to find this treasure. About two years ago several men from War-rensburg became interested, and made an extensive but unsuccessful search for the money. Johnson county was on the trail of the early French settlers of St. Louis, who often made excursions to the western part of the country in search of gold and silver. This county was a convenient place for the Osage Indians from the south to attack the returning parties that had been successful in their search for the precious metals.

A survivor of one of these parties, who died many years ago, told that \$70,000,000 ln gold dust was buried in this county, and that a large rock near where it was buried had some characters cut on it to indicate the location of the money. This rock was found, be-fore the war, by a man named Will-iams, who owned the farm at that time. At the opening of the war, however, he destroyed the characters on the rock for fear that marauding bands of soldiers would discover them and obtain the treasure. Williams himself hunted for the treasure, but was unable to do much on account of his lack of means. Later he was compelled to sell his farm, and has since kept his secret in regard to the characters on the rock. But now the managers of the searching party are trying to get Williams' services in

BOMBAY, Ang. 17 .- The religious race rioting was resumed in this city yester day, and for several hours the street: were the scenes of desperate conflicts. The fighting was of the most saugulnary nature, and a large number of persons were killed and injured. Yesterday being a Hindoo holiday, the authorities anticipated a renewal of the recent disturbances and were in a measure prepared to suppress the outbreak, but the police and the force of troops in the garrison were inadequate to cover the whole city, and before quiet had been restored in one district fresh outbreaks would occur in other parts of the city.

The rage of the mob was directed

especially against the mosques, several of which were sacked and burned. All the public buildings are now guarded by troops and the gunbouts in the harbor have been cleaned for action and brought into position to cover the native quarters. The local authorities are confident of being able ultimately to quell the riots.

A Lynching Linble to Oceur Near Yellow Springs, Ohio.

SPRINGFIELD, O., Aug. 17.-Every man in Yellow Springs and vicinity is armed, either with a revolver, shotgun, rifle or club, and the town looks as it it were in a state of siege. The colored man, Whaley, wanted for the three recent mysterious draypin murders there, and the murderous assault, at which he was caught, on Farmer Hopkins, this time with a harnesspin, is still at large but will certainly be eaptured within the next 24 hours.

Marshal Hamilton and deputies ran him into a stone quarry from which he managed to escape. A volley of shots, none of which took effect, were sent after him. Sheriff Dodge of Xenia and deputies have arrived on the scene and are in pursuit. It is quietly understood that if Whaley is captured he is to be lynched without ceremony.

T. C. Springer's Charts Displaying Progressive and Number Study and Teachers' Anatomical Aid.

Visit to Aberdeen-Additional Enrollments-Discussions. Notes, Etc.

The institute was called to order Wednesday morning at 8:45 o'clock by Superintendent Blatterman. After scriptural reading and prayer by Prof. Josiah Wilson, Mr. T. C. Springer, representing the Contral School Supply House, of Chicago, was granted and opportunity to exhibit before the institute charts displaying progressive number study and teachers' anatomical aid, which was viewed with deep interest and proved a valuable object lesson to the teachers.

At the close of this exhibition Superintendent Blatterman deliverd some appropriate remarks commending these

propriate remarks commending these charts and recommending teachers to make effort to have one or both of these aids adopted in the various districts. On motion of Prof. Hays Thomas the follow-ing resolution was adopted:

That it is the sense of this institute that the charts exhibited by Mr. Springer should be introduced into the schools and be highly recommended.

T. V. Chandler presented his method of teaching civil government, which was well received by the Institute. He was followed by H. P. Wilson, who thinks we should begin with the family, then proceed in order to the school, town or city, eounty, State and United States, teaching carefully the duties of the various offices.

After an Intermission of ten minutes and a song by the institute the regular work on the programme and syllabus was

work on the programme and syllabus was taken up.

Prof. Peterman thus completed the subject of civil government and defined it as the science of citizenship, and gave the institute something to think about on the subject, after which he gave an outline on the blackboard showing how the subject should be taught.

After singing by the institute Mr. J. W. Asbury presented his method of teaching physiology and delivered a very interesting talk on the topic. He was followed by Miss Howard and Mr. Thomas, all of whom made some very interesting points. Prof. Peterman stated the purpose of physiology; first, better health among the people; second, perhealth among the people; second, personal temperance among the people.

Unele Sam's pensioners are meeting with a few obstacles in the collection of their claims this quarter. In the first place the time for sending the checks was overdue several days, and when they did get them they, as customary, presented them at the banks to be cashed, but to their surprise they were met with a blank refusal, the reason being that in the present money stringency the banks cannot afford to wait until the Government chooses to return the cash. The consequence is that the holders of the checks will have to send them to New York and await the pleasure of the Government to cash them.

CRUSADE AGAINST CHINESE. White Laborers Are Taking Their Places in California.

San Francisco, Aug. 17 .- A crusade against Chinese laborers has been started in Fresno and other places in the the San Joaquin valley, and seems to be spreading over the state. Owing to the financial troubles large numbers of white men are out of work, while many white men are out of work, while many Chinese are employed steadily in vine yards and ranches. It looks as if the Chinese will be displaced. Thus fail violence has been narrowly averted. At Selma, a small town near Fresno white men notified the Chinese that they must leave town and make room for white laborers.

At Fresno yesterday nnemployed mer to the number of 500 held a meeting and paraded through the streets de-nouncing the Chinese. The crowd started toward Chinatown, where 2,000 Chinese reside, but was diverted from its purpose by cool headed citizens. The merchants and vineyardists of Fresno held a meeting, and many of them annonneed that they would dis-charge their Chinese help and employ white labor. One man took 30 white men on the spot and marched them off to his vineyard. Another announced that in a few days he would have work for 200 men. Thus far there has been no violence, and it looks as if the nnemployed white men in the San Joaquin valley would displace Chinese

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50e and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
